GeoTrust is the world's second largest digital certificate provider. More than 100,000 customers in over 150 countries trust GeoTrust to secure online transactions and conduct business over the Internet. The range of digital certificate and trust products enable organizations of all sizes to maximize the security of their digital transactions cost-effectively.

Certificates offer fast delivery at a cost-effective price, enabling up to 256-bit SSL encryption, and include a range of GeoTrust True Site Seals based on the level of identity verification. In 2017, GeoTrust together with Symantec Website Security came to DigiCert Inc.
